Press Kit

About Us

Originally a historic manor house, "La Dimora dei Paladini" is a holiday home complex located in an independent building with a small garden in the internal courtyard, that holds various self-contained studios of different sizes, all equipped with a kitchenette. This historic building, situated in the heart of Bagheria, has a special connection to local tradition: it is said that its cellars were occasionally used as a small puppet (**pupl**, in local dialect) theatre. Here, puppet shows were performed, depicting epic-chivalric stories from the **Carolingian cycle** of the paladins of France and the Arthurian and Breton romances.
